

Submitter: Tim Buckley  
On Behalf Of: Willamette Valley Non Violence Practitioners  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075

Guns won't stop violent behavior but it will make a substantial dent, especially in reducing the number of suicides and attempted suicides. Likewise, passage of the bill will greatly reduce the number of automatic rifles and high capacity magazines, which are designed only for mass murder.

I am a member of Oregonians Against the Death Penalty's advisory board and a seasoned teacher of Nonviolent Communication. Passing this legislation will make all of our lives easier for finding peaceful solutions for conflict.
