

Submitter: Nicholas Pizzolas
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

To the politicians who have lost their way and forgotten their oath to the constitution. I have been an Oregon Resident since day I was born 35 years ago. I'm the youngest of four children. My friends, my associates, My brothers and I are all law abiding citizens other than traffic violatons here and there. Many of my associates are law enforcement officers, deputies and or state troopers. We all have spoken about this agenda to strip American citizens of our rights and slowly turn us into a one world order country. We all agree that we will not comply with any legislation that violates our rights nor will my associates in law enforcement enforce these unconstitutional laws.

I'm a father, husband, son and an American.... if you wish to try and turn me into a felon based on your tyranny then so be it.... I will not comply.

As you rich career politicians continue to sit behind state and private security while decriminalizing drugs, rape, and illegal traffickers. You also try to take away rights of the middle class.

I will defend the constitution and my family from enemies both foreign and DOMESTIC??
