HB3075

As a lifelong Oregon resident and registered gun owner I've experienced the cost in time and money required to buy and carry a firearm in Oregon. We've already been subjected to unconstitutional laws and regulations regarding our 2nd amendment and criminals do not follow the laws you've already imposed upon law abiding citizens. I am adamantly opposed to any further restrictions, laws, mandates or regulations on the purchase or use of firearms in Oregon. The only people you're impacting are non criminal, law abiding citizens who wish to protect their property, families or communities. Leave our constitutional rights alone!
