Hello,

I believe this bill is designed to restrict the constitutional rights of minorities and underrepresented groups from legal, law-abiding firearm ownership. Giving law enforcement the sole decision in who can or cannot have a firearm is a gross misuse of the state's power in infringing on the right to bear arms.

I also believe that restricting magazine capacity and criminalizing existing ownership violates ex post-facto.

Please recognize this bill for what it is—a targeted attack on the firearm rights of those who are already underrepresented in our state and nation. I oppose this measure and bill.

Thank you.
