Philip Kriens

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I strongly oppose this measure that not only violates the very clear Oregon Constitution but the Constitution of the United States as well. Imposing additional onerous restrictions, fees, classes and requirements serves only to deny people of lower income status their rights to self defense. This is a poll tax on the poor and marginalized communities and is a disgraceful action by wealthy elites to restrict the average citizen from exercising their protected rights. Shame on the legislative body for refusing to stand up for those who need it the most.
