

Submitter: Jason Montgomery  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3075

This measure allows too much overreach by the government and local municipality law enforcement by allowing someone to be prohibited based solely on the beliefs of a local entity. This is very harmful to not only the LGBTQ community but also any person of color. This measure also causes undue hardship on individuals by making a constitutional right cost money with no actual proof it would reduce any gun violence.
