

Submitter: George Hicks

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This measure is way too expensive and will not reduce crimes involving guns one bit. The statistics show that lawful gun owners are not the problem. We already have laws against gun violence and we do not need any more. Please stop attacking law abiding gun owners and move on to helping our state care for the mentally ill and addicted citizens.

Thank you.
