why does my government insist on trying to infringe on my rights?

Do these people know that they have addresses and names and faces that we will remember?

Do they care that they're stripping rights away?

Are they too brainwashed to realize that they're not actually creating safety?

I'm not sure anyone in support of this has any Oregonians best interest in mind and I would pay close attention to their actions while they pretend to represent us.

Respectfully. Get fucked. People

(not me) are making notes of all the politicians trying to remove our ability to defend ourselves while simultaneously gaslighting the public that they don't need such protection.

Maybe these people can be charged with treason later. Think about that. I'm not sure exactly what the punishment is for treason but I still think they do the firing squad thing.

This is not a threat. I just care about my fellow humans and if they're gonna go about trying to strip Oregonians rights away, they're putting their own lives in danger. I don't understand why they would do that. Who really benefits from this?
