Measure, Appointment or Topic: HB3075

I fully oppose measure 114 as it is unconstitutional, poorly written, too expensive and ours an unnecessary burden on law abiding citizens. In these times of releasing criminals from prison far before the time they were sentenced to complete and the dramatic increase of drug use due to lax drug laws it is deeply concerning to deprive law abiding citizens of their unfringed second amendment rights. It is wrong to penalize law abiding citizens. Stop this madness!
