

Submitter: Rick Lowe

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Good evening,

As a life long, firearm holder. I hope you consider not voting for this house bill and abolishing measure 114. Measure 114 is not written well and not functionable in the current state. I am a firm believer in background checks for both purchase and transfer. The unrealistic permit that this bill would require will not happen anytime soon and it will cause our small businesses who sell firearms to close.. most semi automatic, pistols and rifles come with magazines that are more than 10 rounds. I'm not sure if there's a grandfathered clause in this bill due to its difficult reading. Basically everybody who owns a modern pistol would become out of compliance. Please consider opposing this house bill and saying no to 114.

Respectfully

Rick Lowe
