

Submitter: Joan Weaver

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

HB3075 is truly going against what Oregonians want.

This is an overbearing law that is defiantly not an emergency. Declaring this as an emergency takes any recourse away from Oregonians to vote on a bad law and let the people of this state decide on such an important law. Stop treating us like children that should not have a say in how we live our lives!

You believe that young underage children can decide if they want to have body altering operations but you prevent grown adults from deciding about laws that affect us!

You are here to represent the people, stop attempting to rule over us.
