House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

Why on earth would our state wish to punish law abiding citizens? All this measure does is create more legal hogwash for law abiding citizens to deal with, makes thousands instant outlaws and does nothing to deal with criminals. One thing I have never understood is that a police officer will be legal to carry unlimited magazines to protect themselves and others and yet somehow, a measly citizen must do the same with 10 rounds or less. The law abiding citizen is NOT the problem and never has been. This lmeasure puts undo financial burden on law abiding citizens, takes away the ability to protect themselves, especially against muliple armed assailants and is just plain unconstitutional.
