

Submitter:

Cris Pineda

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I oppose to act 3075 that includes measure 114 in it.

Why regulate magazines? Magazines carry however many bullets you choose to put in them. Anybody can buy bullets anyday. Why regulate the size of what holds them if you can own more bullets than what the magazine will ever be able to carry no matter the size. And a Gun is what it goes too and deploys the bullet not the magazine .

Why give the advantage to someone else and the disadvantage to the rest of us. The ones with the advantage aren't always within the best interest for you personally or for anyone/everyone! If everyone doesn't have it , why regulate to the people who know what they have before, now or later and can handle what they got now and later. At the end of the day we are responsible for our own protection, for you that are reading this and for the people who don't get to read this.
