On Behalf Of: Those who don't want criminals aided by ignorance
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

Committee Members,

Those of you who really think this HB, this go around to Measure 114 will stop criminals from obtaining guns are acting foolishly imo.

And if you think someone really hell bent on suicide will be stopped by this Bill you are so wrong. This I know as a direct witness.

This Bill is fueled by ignorance, willful and otherwise, by lies, by erroneous stats, some of which were said to me from a paid individual up from California trying to get me to sign the petition for 114, and worse of all the apathy of those who don't believe many politicians in this state are trying to usurp the Constitution and most especially the 2nd Amendment. Which this Bill does.

Passing this Bill makes you an advocate to further dividing Oregon. Your disdain for those who call your actions out rather than your trying to work with those who are capable of accurately educating you is testimony to political subterfuge. Having to pass a Bill via law fare and ignorance is not being true statesmen.

Oregon is fast becoming a national joke with its political path and policy woefully exemplified by this Bill.

Vote NO and attend to the real reasons behind crime and suicides. Those reasons are not caused by the 2nd Amendment or our Constitution.
