On Behalf Of: myself
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

i support measure 114. just like getting a driver's license, getting a marriage license, getting a loan to buy a house or a car, there is a process a person has to go through. going through processes is the daily requirement of living in today's society. there is nothing wrong, and everything right, in adding the processes of owning a gun, as at outline in measure 114, to the requirements of living in today's society, ESPECIALLY, WHEN IT WILL RESULT IN THE SAVINGS OF LIFE.
