

Submitter: Eric Orendorff

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I oppose and encourage opposition to HB 2075 on the basis that it will do very little in the way of deterring violent crime. It will however have a tremendously negative effect on citizens trying to exercise their 2nd Amendment rights. In fact, nowhere else are we required to obtain a permit before exercising a guaranteed right. Thank you.
