

Submitter:

Jill Ingalls

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I oppose this bill and the impingement on my ability to effectively protect myself and my family. We are law abiding citizens and give you no right to reduce or restrict personal property we have obtained in a legal manner. The only people this will help are the criminals. Start with incentives for training and fund mental health before you strip law abiding citizens of their rights.

A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed". You State of Oregon cannot protect me, and lately you have done damage rather than support individual freedoms. I oppose this bill.
