HB3075

I'm a 6th generation Oregonian, and my family came across the Oregon trail and settled Beaverton in 1847~49. I don't believe that this bill would have been approved of by them, and it disappoints me to see our rights stripped away on behalf of people who cannot see the long term effects over the immediate gratification of what they call 'safety'. Criminals do not adhere to laws, and hence the reason they are considered 'outlaws'. This measure does nothing to punish them, but instead puts a choke hold on legally innocent and law abiding firearm owners. Making it mandatory to acquire a purchase permit is a money grab, as is making them solely obtainable from a state funded institution. The absurdity of the people pushing this measure to say it is upheld by "the people of Oregon" is a lie. My family, all 6 generations of them, all my friends, coworkers, and native Oregonians oppose this poorly thought out, intentionally deceiving, and selfish measure. Furthermore, the 2nd Amendment is not a question and was never intended to be interpreted as such regardless of feelings.
