

Submitter:

Dwaine McClintock

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

The government can not prohibite any law abiding citizens from owning or carrying a weapon inside or out side in public except in some government offices and even that is questionable according to the second amendment and the fortenth amendment . No magazine ban or training can be mandatory to restrict my rights to do so . Your communist attempt to tell a lie often enough to get it to become the truth shall fall as the supreme court has already answered these issues.
