Measure, Appointment or Topic: HB3075

I strongly oppose h b 3075.

Our country has a sound foundation on which our 2nd amendment rights are plainly laid out.

Law abiding gun owners go through background checks, safety training and promote responsible and good stewardship of firearms. Conversely, criminals don't.

Another law, with downright ridiculous and unproductive bells and whistles is a distraction from the real issue. Criminals buy guns illegally .

Punishment of the innocent won't solve our gun violence problem.

Thank you for protecting our 2nd amendment.

Megan
