

Submitter: Teresa Ervin

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

To Whom it may concern:

It is appalling that this bill has gained a hearing without a fiscal impact statement readily available. This is an unfunded mandate to counties. It is widely known that law enforcement does not support this/ these measures. Their jobs are already hard enough. This would make every county less safe as funds are funneled away from officers protecting law abiding citizens and having to be used for staff to process paperwork and provide training, etc. This measure will be extremely costly as the Governor and her staff will continue to spend millions of dollars fighting to install an unconstitutional mandate. This measure does not provide solutions to the challenges of violence and guns. It only creates division and gives criminals who do not obey laws the upper hand.

I strongly oppose HB 3075.

Regards,
