

Submitter: Clinton Freeman

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This bill is unwanted and making it unsafe for Oregonians protecting themselves and loved ones to say the least. With the sad state of our poorly neglected and under appreciated law enforcement this is a fiscal nightmare for them with a strained budget already. Means of making a course and people to staff that would only be a huge financial strain for Oregon tax payer to fund law enforcement in order to get a program up and running all over the state. This bill is unsafe for Oregon families and also a waste of tax payer money, not to mention the violation of the constitutional right of the 2nd amendment. While the state tries to get a program in place, leaving Americans in limbo of there rights that law makers all to often forget TO PROTECT under the oath of office. This bill needs to be tossed out immediately! Stop wasting money and infringing on our rights as Americans!
