I oppose this bill on several levels. First, it will do nothing to prevent crime or reduce gun violence, criminals do not follow existing laws, one more will not deter them. Secondly, it will have a huge financial impact on the State of Oregon. It will force many small businesses to close, resulting in a loss of tax revenue. It will cost the state 100s of thousands of dollars trying to defend it in the courts, and will ultimately fail based on recent legal opinions such as the Bruen decision. It will place a huge burden on state police budgets, which are already understaffed, in the redundant background checks it mandates. And finally it will turn law abiding citizens into criminals by requiring compliance to standards that will be impossible to comply to.
