

Submitter: Gretchen Bates

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am writing in strenuous opposition to HB 3075. This bill is an obvious attempt by the Democrat supermajority to potentially circumvent the circuit court decision on Ballot Measure 114, which Judge Raschio ruled unconstitutional. Yes, the Appeals Court disagreed last week. But HB 3075 seems to have been drafted in case the state loses either in the State Court system or with the Federal case. Oregon Democrats are determined to infringe upon Oregonians right to bear arms, at any cost, despite the fact that NONE of the provisions of either BM 114 or HB 3075 will make anyone in this state safer. The only outcome of these attempts will be to make it more difficult for law abiding Oregonians to buy legal weapons. In some cases, these roadblocks will COST lives. Do you not understand that criminals WON'T use your onerous "permit to purchase" process? You help criminals by making it more difficult for citizens to protect themselves.

Vote NO.
