Measure, Appointment or Topic: HB3075
03/17/2025

I oppose the enactment of Measure 114. This is a nightmare for Oregon State police and for anyone attempting to facilitate this bill. It creates more red tape than anything and the very people that might be inclined to enforce this will be so frustrated because they are the ones that have to give the classes and issue the permits and will create an extreme backlog. it will soon be evident that the choice not to enforce it would look more and more appealing as the backlog grows longer and longer And besides that we all know they took an oath to abide by our US Constitution and our Oregon state constitution and both of those allow possession of firearms and to make that possession stuffed with so many regulations that it's impossible to have freedom is repulsive to the constitution's intent. And I believe the Supreme Court will find that to be true as well.
