Measure, Appointment or Topic: HB3075

HB 3075 leaves tax payers in the dark and should not be allowed to pass out of the House Judiciary Committee because it doesn't have a required Fiscal Impact Statement. This is an unfunded mandated for counties and an undefined burden for tax payers.

HB 3075 would cause harm to over one million oregon citizens by effectively banning magazines that hold over ten rounds. Theas residents would not be able to adequately defend themselves from multiple home invaders. A situation that has become far more common in this state. Furthermore, magazines that hold more than ten rounds are common an in wide circulation, marketing them standard equipment. The right to self defense should not be hindered in any way.
