

Submitter: Cora Rose

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

March 17, 2025

Dear Committee,

I am an Oregon voter, resident of rural Oregon, and a person of faith, and I support HB3075-1. I supported getting Measure 114 on the ballot, and voted for it, because our family has friends and coworkers who have been lost to preventable gun violence that could have been prevented through implementation of a permit program. I write to ask you to please pass HB 3075-1 out of committee without delay so it is ready for full implementation of Measure 114 and we can begin saving lives. Research shows that permits to purchase, like the one in Measure 114, will reduce homicides and suicides in Oregon. This will have a positive impact on the economy, family life, community health, and the intangible, uncountable cost of grief from homicides and suicides in our state that could be prevented by permit program.

Thank you for your time and attention to this.

Sincerely,

Cora Rose
