

Submitter: Robert and Deborah Stumpf
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

As honest, faith believing CHRISTians, gun abiding/owning people who have lived in Oregon for almost 50 years, we both absolutely 100% OPPOSE HB3075. It saddens and angers us, that the Oregon government is no longer about the people, no longer cares what is constitutionally correct, and has been bought out by radical interest groups giving false information. It is sometimes impossible to measure the sheer magnitude of the hatred the Oregon Democrat legislators feel for their fellow citizens, especially conservative Republicans and those who live east of the Cascades. HB3075 does nothing to stop illegal gun sales, illegal gun possession, or the mental health of those who do not follow the law. Start where the problem really lies, mental health. This bill is impossible to comply with. Now that Oregon Democrat party has a super majority, they will now stop at nothing to disarm and further trample on the rights of Constitutional law-abiding citizens in Oregon. We hear, it is in the public's safety to disarm Oregonians. If it is truly about safety, why wouldn't they make it easier for us law-abiding citizens to purchase and carry guns for personal protection? HB 3075 is just a vomited up version of Measure 114 from a couple of years back. Why do lawmakers keep song and pony show this up? Please, we ask that you do not pass HB3075. There are so many flaws in this bill, no one can enforce it, pay for it, or navigate the ridiculousness of it.

Sincerely,
Robert & Deborah Stumpf
