I do oppose this measure.

It does nothing to stop criminals from getting guns (weapons).

It is a violation of both Federal and Oregon Constitution law, the right to have and bear arms.

This bill is an attempt to limit magazine size and add criminal charges and penalties to, at the time manufactured were standard size for the weapon purchased.

The waiting period of 3 days is more than adequate to search backgrounds in this day with the computer systems currently in use. The 30 or now 60 day is excessive an infringement of the 2nd Amendment.

Permit to buy a firearm is also an infringement of the 2nd Amendment.

Thank you for including my comments.
