Measure, Appointment or Topic: HB3075

This is just another way to criminalize and restrict the people following the law. Criminals will always have fire arms (semi auto, full auto, suppressed, and 50+rnd drums) no matter what bill or law is put into effect. All this will do will make it harder for a hard working American to purchase a firearm for hunting/self defense/sport shooting. A HUGE overreach of our local government.
