

Submitter: Buddy Butcher

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Measure 114 is a direct assault on the fundamental rights of Oregonians, violating the constitutional protections that safeguard our freedoms. It undermines the rights of law-abiding citizens, limiting access to legal firearms and placing unnecessary burdens on responsible gun owners. Our Second Amendment rights should never be compromised, and this measure is an infringement on those rights.

Furthermore, HB3075 should not be passed out of the House Judiciary Committee due to the absence of a required Fiscal Impact Statement. This creates an unfunded mandate for counties, potentially draining local resources without the proper planning or financial backing to support its implementation. These kinds of mandates are irresponsible and have far-reaching consequences that harm the very communities they claim to protect.

The right to bear arms is not only a protected constitutional right, it is a cornerstone of American liberty. This right has been defended by countless men and women who sacrificed their lives to preserve it. The fact that such a measure has even come this far is a dangerous precedent that threatens the freedoms so many have fought to protect. It is essential that we stand together and ensure that our rights remain intact and that our government is held accountable for its actions.
