Measure, Appointment or Topic:

HB3075

I represent over 100 people from Lincoln County who are sick and tired of our constitution and un-learn-able rights being squelched by unlawful and disobedient judges and legislators.

As my shirt states

This is my gun permit..expiration date NEVER!

With the recent deaths in Lincoln County by homeless and those eluding our police, I take my safety and the safety of my friends and loved ones very serious.

Thugs are lawless, gaining firearms illegally, no law will change that. Only enforcement of current laws can help give we the people the security we deserve.

Removing our rights only allows the thugs to be empowered to slaughter as they see fit.

I have every right to defend myself and my property, after all, I'm just a tiny old woman speaking for HTP throughout Oregon.

My heart goes out to the many who testified concerning loved ones. But my rights should not depend upon their loses due to illegal activities of others.

Ronnie Daniels gave a heartbreaking testimony as well, but stated it's a good thing his mom had a firearm. He, at the young age of 6, watched another child nearly decapitated by a gunshot from an illegally obtained firearm.

Don't make 85% of Oregonians become illegal gun owners.

I had nieces and a nephew at ground zero when Kip Kinkle (known to be mentally unstable) did his shooting at Thurston High School, not a one of them agree with removing everyone's rights to own firearms. One neice was missed by a margin of inches, but her boyfriend and best friend weren't as lucky both were shot, but survived their injuries.
