

This is my testimony on HB 3075 and I wish to convey my concern and complete disbelief for this proposed legislation.

To begin, this requires a Permit to Purchase. Seriously?? ... a permit to exercise a constitutional right clearly codified in the Second Amendment of the United States Constitution? That's full on nuts. How about my First Amendment right, the Fourth, the Fifth? Will there be an Oregon permit requirement to exercise those rights as well? This right is also clearly indicated in the Oregon Constitution Article 1, section 27.

This permit nonsense also requires training. Training?? ... in the late '70s, while in the military, I participated in competition on my squadron's pistol team. In '78 I participated in the Navy's Atlantic Fleet pistol championships in Dam Neck, VA. I probably have more rounds down range than half, and likely more, than any law enforcement officer in the state of Oregon. This requirement is also full on nuts. ...and kindly take note; there are no training requirements mentioned in the Oregon constitution or the US Constitution or Amendments.

Large Capacity Magazines - Have you people any clue (likely not) of the defensive firearms on the market today (and previous decades) and the corresponding capacity of the magazines they ship with / are designed for? Do any of you people truly know what a magazine is, what a clip is?

This 10-round limit is full on nuts as well. It serves no purpose other than you legislators thinking you are saving the planet, saving the children, etc. It serves absolutely NO purpose as a mag change can be done quite rapidly, and magazines with a larger capacity will be available elsewhere.

And, what's with this Marion county requirement should one wish to challenge this in court? Without question, liberal / democrat / partisan nonsense at its finest, an attempt to hold power (surprise, surprise) regardless of how it looks / serves the people, and likely is unconstitutional.

Democrat / liberal agenda has completely destroyed the west coast of the United States, Alaska excluded. California, Oregon and Washington have completely devolved into a total mess under democrat control.

You democrats don't serve the people, you serve your ideology:

- Gun control
- Men in girl's bathrooms / locker rooms / sports
- Open borders / illegal immigration
- Sanctuary cities / states
- Mail in voting
- Anti-Semitism
- Drugs / Bail reform / The victim is the criminal
- and on, and on, and on

You democrats hate the United States of America, the United States constitution and the accompanying Bill of Rights, and the Oregon constitution. And, you democrats fight every day to destroy what the Founders envisioned for this country.

Each and every one of you democrats truly disgust me.
