HB3075

This bill is a infringement on our second amendments right. The permit to purchase a firearm is making us do extra hoops to exercise our rights given to us by our founding fathers of this great country, we already go through a state and federal background and have to pass that to purchase. As far as the magazines most firearms have higher rounds in the standard capacity magazines they come with I can tell you that us law abiding citizens will follow the laws as we have and the people that cause the issues don't follow the law and will keep their magazines and still find ways to get firearms to do bad things it only puts normal law abiding citizen at a great disadvantage.
