Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

We desperately need gun control in the USA. Kids are shot down every day, yet the legislature stays firmly in place, or even loosens regulations. The only thing you need to look at are the statistics to see how many kids and communities are stricken by gun violence. They said Sandy Hook would be a turning point, but here we are today, in the same position. It's time to act!
