

Submitter: Kim Foster
On Behalf Of: Law Abiding Gun Owners
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

HB 3075 and Measure 114 are unconstitutional vis-à-vis violate the Second Amendment to the US Constitution, which reads:

“A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.”

Repeat: “shall NOT be infringed”!

Despite the Appeals Court action, Measure 114 is still making its way through the legal process, and ultimately will be irrevocably deemed unconstitutional. \$5M has already been spent by the state of Oregon and much more will be spent and wasted on it and HB 3075 if it is enacted; precious TAXPAYER money that could've gone to worthy causes.

HB 3075 will require a class you cannot get, to ask for permit that will cost a lot of money and take months to receive even if you could get the class, and just gives you the opportunity to start the entire process over again when you get to the gun store. HB 3075 will also make you a criminal for possessing ammo magazines over 10 rounds unless you can prove you got them before Dec. 2022, which is of course, impossible or at best, burdensome. ...and even then, you cannot leave your house with them.

HB 3075 is unacceptable and an abuse of power. Making it harder for law-abiding citizens to exercise a right will do nothing to prevent gun crimes! We are not the ones committing gun crimes.
