Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3075

I am writing today to express my opinion on this unconstitutional bill before us. This bill is a direct attack on law abiding citizens of our state. This bill is attacking the financial well being of everyone. The outrageous cost to an individual to be able to purchase a firearm, the unfunded fiscal impact that this will have on all taxpayers in Oregon. There seems to be something lacking with the thought process and the legality of these bills. COMMON SENSE!! This state has tough laws in it already and are in place and being enforced. Please tell me how more laws are going to change one thing?

The lies and misinformation that is being fed to people by supporters of this bill and the media is a true reflection of what is happening to our state. It's not the guns fault that something bad happened, it's the person pulling the trigger. Politicians and gun grabbers always blame the firearm. Why does the car not get blamed when a drunk driver kills or injures someone, better take away the car and the alcohol. There are many ways that people can harm other people, but most only blame the tool when it involves a firearm. It's never the cars fault that it killed someone, it's the driver. Same thing as a firearm. Common sense has to prevail in our state, because god knows it is lacking tremendously.
