

Submitter: Jessica Woodland

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I became a new mom to my daughter last year. My husband is also a gun owner. We believe in common sense gun laws that will save lives, especially considering our daughter's life in the community and when she starts going to school. Along with the majority of other Oregonians, we voted for Measure 114 to pass and we want to see Measure 114 go into effect as soon as possible. Research found over a 10 year time period, this policy will save 1,000 lives in Oregon. Please ensure the state has the resources and ability to support a smooth implementation. Thank you!
