

Submitter: Jeremiah Russell

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Anything that infringes on my ability as a law abiding citizen to obtain a firearm is against the Constitution. There is no funding for this bill, no permit process in place and nothing that make anything about guns less likely for a criminal to use them. They are already not allowed to unlawfully use guns. This will not change that. All this does is take guns out of law abiding citizens hands.
