

Submitter: Hayden Halva

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Measure 114 will do absolutely nothing to stop gun crime from taking place in Oregon. Background checks already take place during the routine purchasing of firearms from FFLs. To do a background check to obtain the permit then again to purchase the firearm is ludicrous. A magazine capacity limit is also pointless. Criminals are already breaking laws when committing crimes involving guns. If they are willing to commit murder, theft or assault a 10rd magazine capacity limit is the least of their worries. All measure 114 does is allow the state to take more money from oregonians with nothing in return and create more arbitrary legal cases due to citizens being in possession of something they've been able to use their whole lives.
