HB3075

I strongly oppose this bill. There is no fiscal impact statement and no explanation for the increased fees over the original M114. In addition, There is no way to allow or enforce a bill that has a 2+ year retro-active date on the purchase of items that are currently allowed for sale/purchase. This is unheard of! There are already enough laws on the books to address gun violence, we just need to use and enforce the ones we have. This bill will change nothing for the criminals, as they are already not obeying the law, this bill only serves to punish the law abiding. There is no purpose to having a background check to get a permit to then have a background to purchase a firearm. We already require background checks upon purchase. This bill, and M114, are simply more unnecessary redundant bureaucratic red tape. Please do not support this bill.
