Measure, Appointment or Topic: HB3075

Dear media, lawmakers, lobbyists and citizens; this delay of bill explanations is a blow to transparency and public participation in the Capitol.

Ordinary citizens do not have a team of standby lawyers to go through as many as 50 bills a week that are having hearings or amended work sessions.

People of all political sides and parties should be concerned.

Just because the politicians introduced a history record-breaking 4,000 bills doesn't mean that votes get to have their access blocked because the system can't explain what they are doing on time.
