

Submitter: Takoda Hotchkiss

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB243

Myself, along with many Oregonians are incredibly disappointed with the barage of unconstitutional legislation thrown at us from our elected officials. Instead of making laws to keep the public safe and target crime, they introduce laws in an attempt to disarm and deprive Americans of the same liberties our founders and veterans fought and bled for. Stripping law abiding citizens of our rights that are endowed upon us by our creator and enshrined in our constitution. Whoever introduced this bill should be held legally accountable and prosecuted to the fullest extent of the law for the attempt to deprive united states citizens of their God given rights and abusing their power to push politically biased laws that will do nothing but negatively impact Oregonians and costing some of them their lives. If you were truly concerned about the mental health problems within our beautiful state you would provide mental health services not unconstitutionally deprive Americans of our liberties. This bill is nothing more than the usual democratic solution to everything instead of solving the problem at its source just impose illogical nonsense legislation to steal the rights of honest working Americans who pay your salary. Enough is enough, we are getting pretty sick and tired and eventually our votes will start to show how fed up we are.
