this is totally ridiculous, we already have a waiting period, on firearm purchases, why do we need a waiting period, on parts, finished or unfinished, this is another infringement on our 2nd amendment rights, parts are NOT guns, obviously the creators of this bill, will stoop to low levels, to harm legal gun owners, just more hurdles for sellers and purchasers to jump thru, needlessly, accomplishes nothing, and has no effect, on illegally owned guns, only effects, law abiding citizens
