

Submitter: Trudy Gregory

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

To the spenders in office, please stop it! We Oregonians are being taxed to the point of personal disaster. When is enough enough? It there ever going to be a time that you make hard choices about where to spend the money you have extorted from the tax payers? I feel like you need to do as the taxpayers do and live within your means. We are not living at the end of the rainbow and don't have endless pots of money. Your job is to help us not tax us into poverty. I fear this is where many of us are headed with the current mindset coming out of Salem. NO NEW TAXES
