Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

A convenient, well functioning public transit system is crucial for Oregon. People who don't have access to cars rely on this for all they do - work, child care... For those like me, with a car, public transit keeps me and my car off the road lessening air pollution and congestion. As the population ages, more people will need access to a good public transit system; things happen and people can no longer drive. Please pass this bill.
