

Submitter: John BUNYARD

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

This new bill is not thought out and will
Cost Oregonians more money out of their paychecks. We need to stop the tax hikes
and focus on taking care of the current population. There are many families struggling
in our state and this takes away from their hard earned money. Let's support families
not charge them more in taxes.
