On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

This bill will take people that are already on hard times into destitution. If there is justification for a gas tax and the money is going directly to odot that is great but imposing dozens of new taxes and not stating where they are going or why they are needed is essentially theft. If the state thinks that it needs to tax it's residents (many who haven't had raises in several years) to pay for the state employees 13% "cost of living" raise they need to rethink what they are doing in this state. We let Trump win by not taking care of the CITIZENS. If this passes Oregon will turn red next election.
