

Submitter: Dana Baugher

On Behalf Of:

Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

People in Oregon are already facing loss of home, loss of employment, living under bridges and without sanitary conditions, food, water, showers and health care... despite \$\$\$ thrown at a myriad of services it all comes down to mis-use of funds, in my opinion, and this is just another example. We cannot afford it. This is a serious infringement on families, students, retirees, laborers... taking money from those who need it for daily living to spend on things unnecessary, like bike paths, crossing prohibited barriers where crossing wouldn't be possible anyway, over working ADA ramps where there are already ADA ramps... People of the Joint Committee on Transportation Reinvestment, please vote NO on this bill. HB 2025
