Committee: Joint Committee On Transportation Reinvestment

Measure, Appointment or Topic: HB2025

I am on social security and all these new taxes are making it impossible to live on what I get. Health insurance, property taxes, food, gas, utilities and car insurance have gotten so expensive and our cost of living increase doesn't even come close to what we are having to pay. STOP increasing taxes. We are a no sales tax state and these taxes are on sales.
